NHS ODS Code – 8HC51

Voice Connect Ltd. first gained access to the NHS N3 network in 2005, to support our NHS customers.

We completed the NHS Information Governance Statement of Compliance (IGSoC) on Tuesday 10 June 2008, which earned us access to NHS digital services, including the N3 Network.

We subsequently made an annual submission to the Information Governance Toolkit (IGT) until it was discontinued on 31 March 2018, to renew and maintain our access to NHS digital services. This included access to the N3 Network, which later became the Health and Social Care Network (HSCN).

We now make an annual submission to its replacement, the Data Security Protection Toolkit, which earns us (continued access to NHS digital services and) authorisation to process NHS personal data.
